

One-Material AI Brand Advertisement

Brand: One-Material

Product: WH-AGdTiB™

Slogan: One Material for a Safer Nuclear Future.

1. Brand Identity

One-Material develops next-generation thermal neutron absorber panels for spent nuclear fuel storage baskets using Al6061-Gd₂O₃-TiB₂ additively manufactured composites.

USP

- Cost-effective manufacturing
- High thermal neutron absorption performance
- Simple manufacturing process
- DED additive manufacturing technology

2. Campaign

Goal: Build a premium engineering brand image.

Core Message: One-Material이 원전 안전의 미래를 설계합니다.

AI Tools: ChatGPT(DALL·E), Kling AI, Suno AI, ElevenLabs, CapCut

3. Storyboard

Scene	Time	Message	AI Tool
1	0-2s	Future nuclear power plant	ChatGPT + Kling
2	2-4s	Spent fuel pool basket	ChatGPT + Kling
3	4-6s	DED manufacturing of WH-AGdTIB	ChatGPT + Kling
4	6-8s	Panel advantages	ChatGPT + Kling
5	8-10s	Brand logo & slogan	CapCut

4. Prompt Engineering

Image Prompt (excerpt)

Futuristic nuclear power plant at sunrise, clean environment, cinematic lighting, premium engineering advertisement, ultra realistic, blue and silver color palette.

Video Prompt (Kling)

Slow cinematic camera movement, realistic nuclear facility, smooth dolly shot, volumetric lighting, engineering commercial.

Audio Prompt (Suno)

Epic cinematic corporate soundtrack, futuristic technology, inspiring, orchestral with ambient synth.

Prompt Revision

Before: 'Neutron absorber panel' → After: 'WH-AGdTIB neutron absorber panel installed inside spent fuel storage basket, cinematic industrial lighting'. Result: clearer product focus and stronger industrial branding.
